

Hello Coaches,

I know many of you are just starting to get your team together and thinking of summer and warm weather!!

The ACE website has been updated so please take the time to familiarize yourself with the website there are many new items making this website more valuable - like being able to register a team online which will be an option NEXT YEAR.

As this is a new year all ACE Certified coaches will have to renew their certifications. Please log onto the ACE website and complete the NEXT LEVEL/CONTINUING EDUCATION so we are all prepared for this years season. Below are some FAQ's sent from the national office - If you have any problems or issues with the site/test please let me know and I will get them solved.

Also new this year each coach in the dugout needs to have a background check done - you can find that option on the Ace website as well. You will not be given a card saying you have passed the background check - only a confirmation email. It would be wise to print this email off and keep with you just as you would insurance forms.

This year it is still required that one coach be ACE Certified at Championship Tournaments - since all coaches must be background checked it wouldn't be a bad idea to pay the extra \$13 and become an ACE certified coach. This will help alleviate the problem of - Oh the ACE certified coach had an emergency and could not make it.
