

Improvements made to Waterville Softball Facilities

Just wanted to share a few things with everyone regarding our softball facilities.

-Pine Ridge: Thanks to Randy Pelletier (and crew) and Dan Beaulieu (Ware Butler), we were able to restore our bathroom facility at Pine Ridge. Randy's group provided the labor and Dan helped out with the materials. Our P&R crew just finished up trimming and painting the building this week.

-Couture: Our crew added several yards of loam to some low area's (especially along the left field line). This area has been seeded and fertilized and should be growing grass soon if it hasn't done so already. The parking area will also have material added over the next few weeks.

-Peter's Field (Armory Rd.): We have begun redefining the parking area by adding material and will place boulders around the perimeter when finished.

-Herlihy and Rummels: Thanks to Jeff Marshall and Maine ASA, these fields will have new infield mix worked into the infields on Monday, July 19th.

-Reed: Infield mix will be delivered to Reed week of July 26th.
